

PLACEMENTS & SUMMER TRAINING

Final and short term summer placements are an important aspect of a professional Institute. IITTM, Bhubaneswar takes care to meet the students' and industry expectations on this front through its close relationship with leading organizations in the trade. The training and placement cell provides assistance to all students in three ways namely:

1. Information regarding training opportunities in industries, public/private firms
2. Placement in reputed national and multinational Industries.
3. Counselling for higher education prospects

SUMMER PLACEMENTS

The process starts with interaction with different organisations of repute who select Graduates from premier/reputed institutions regularly. For this purpose the Institute maintains a database of the organisations where our students are placed for summer training. Further every year we progressively add the names of new organisations Interested in taking students for summer training.

FINAL PLACEMENTS

Our endeavour is to ensure the best possible placements for all the out-going students. The two years of grooming at the center get reflected in the final placements of the PGDM (Travel & Tourism) and (International Business) students when the leading domestic and MNC's recruiters show confidence in the institute year after year. Students are offered placements in Tour Operations, Ticketing, Logistics, Marketing, and Finance. A distinct trend at Final Placements 2014 was the wide variety of profiles on offer, even from traditional recruiters. Institute pro-actively works for campus placements. This usually includes a pre-placement talk followed by Group discussion, personal interviews and psychometric tests. Students also get Pre-Placement offer immediately after their summer training. The students join the organisations on due dates after completion of the entire course.
